

‘Building Resilience in Children and Young People, Now and for the Future’

Wednesday 26 November 2014, 2pm onwards

The ORTUS Maudsley Learning & Events Centre
82 - 96 Grove Lane Camberwell, London SE5 8SN

CUES-Ed

Is a brand new initiative delivered to whole classes dedicated to building resilience and promoting emotional wellbeing in primary school children. Hear directly from children and teaching staff about the pilot programme in Southwark.

Stressbusters

An interactive computer software programme based on a clinically effective face to face CBT package for young people with depression.

SEaDS: Support, Engagement and Delivery in Schools

A bespoke service where a mental health practitioner can work within your school with children who may have mild to moderate mental health issues.

DISCOVER

These successful workshops have been developed with teenagers’ advice and are non-stigmatising, open access services for 16 to 18 year olds who experience anxiety or low moods. Workshops are provided in the educational setting.

EPEC: Empowering Parents, Empowering Communities

EPEC is a community based programme training local parents to run parents groups in schools and children’s centres.

Development Area

There will be more products on show and an opportunity to discover what other innovative services are being developed as well as an opportunity for you to share your views.
